🎓 [University of Dhaka](#)

Feroz Ahmmed

I'm a seasoned web application developer with a proven track record of delivering high-impact solutions across the entire technology stack. I specialize in .NET Core and C# development, with deep expertise in building scalable microservices using modern architectural patterns. My commitment to excellence is backed by formal education from the University of Dhaka and industry-recognized Microsoft certifications. I thrive in fast-paced environments where I can make an immediate impact, mentor others, and continuously push the boundaries of what's possible with modern cloud technologies.

Experience

.NET Developer

Toptal Contract

Mar 2022 – Jun 2025 • 3 years 4 months

Chicago, Illinois, United States (Remote)

Contributed to the modernization of a mission-critical legacy application for a Fortune 100 North American construction equipment manufacturer.

- Migrated from .NET Framework to .NET Core.
- Redesigned and optimized the database schema to align with evolving business requirements.
- Developed high-performance solutions for data-intensive operations.
- Authored complex SQL Server stored procedures to optimize data import and ingestion.
- Implemented performance tuning strategies including query optimization, indexing, and caching.
- Collaborated with business stakeholders and subject matter experts.
- Conducted thorough performance testing and profiling.
- Participated in code reviews and knowledge-sharing sessions.

Skills: .NET Entity Framework SQL Server Performance Tuning

SELISE Group

Full-time • 3 years 2 months

Senior .NET Developer

May 2021 – May 2022 • 1 year 1 month

Dhaka, Bangladesh (Remote)

Led and mentored a team of 10 developers, providing technical guidance, code reviews, and best practices.

- Onboarded and trained new team members on microservices architecture.
- Spearheaded migration of multiple microservices to newer .NET versions.
- Implemented comprehensive monitoring and observability solutions.
- Established logging and monitoring best practices.
- Architected and maintained distributed tracing and centralized logging infrastructure.
- Collaborated with stakeholders to define technical roadmaps.
- Conducted technical training sessions and knowledge-sharing workshops.

Skills: .NET Azure DevOps Microservices Application Insights ElasticSearch Kibana Seq

.NET Developer

Apr 2019 – May 2021 • 2 years 2 months

Dhaka, Bangladesh (Hybrid)

Served as the primary developer, leading the development of a significant portion of the application using C# and .NET Core.

- Designed and developed microservices architecture (DDD, CQRS, Event Sourcing).
- Implemented serverless solutions using Azure Functions.
- Containerized microservices with Docker and orchestrated deployments using Kubernetes.
- Built and maintained CI/CD pipelines using Azure DevOps.
- Leveraged Azure CosmosDB as the event store and data persistence layer.
- Implemented event-driven architecture for asynchronous communication.
- Configured Kubernetes deployments with auto-scaling policies and health checks.

Skills: .NET Core Azure Functions Docker Kubernetes CosmosDB CI/CD

Full Stack Developer

Loence Solution Full-time

Jan 2019 – Mar 2019 • 3 months

Dhaka, Bangladesh

Contributed to the development of a comprehensive ERP software solution at a startup.

- Worked across the full stack with Node.js, TypeScript, Angular, and MongoDB.
- Led development efforts on the Human Resource Management (HRM) module.
- Built RESTful APIs using Node.js and TypeScript.
- Designed and implemented responsive Angular components.
- Architected MongoDB database schemas.
- Collaborated closely with stakeholders in a fast-paced startup environment.

Skills: Node.js TypeScript Angular MongoDB

Angular Developer

SELISE Group Full-time

Jan 2018 – Jan 2019 • 1 year 1 month

Dhaka, Bangladesh

Developed a comprehensive project management tool using TypeScript and Angular.

- Designed and implemented interactive data visualizations and charts.
- Built scalable front-end architecture with Angular components.

- Created dynamic dashboards for project analytics.
- Collaborated with team members to gather requirements and iterate on UI/UX designs.
- Utilized TypeScript to write type-safe, maintainable code.

Skills: Angular TypeScript MongoDB Data Visualization

AngularJS Developer

SELISE Group Internship

Jan 2017 – Jun 2017 • 6 months

Dhaka, Bangladesh

Developed responsive and dynamic user interfaces using JavaScript and AngularJS.

- Built reusable components and implemented complex front-end functionality.
- Collaborated with senior developers and cross-functional teams.
- Debugged and optimized existing code.
- Gained hands-on experience with modern web development practices.

Skills: JavaScript AngularJS

Education

Bachelor of Science in Software Engineering from [University of Dhaka](#) (2017)

Higher Secondary Certificate (HSC) from [Pirganj Govt. College](#) (2013)

Secondary School Certificate (SSC) from [Pirganj Pilot High School](#) (2011)

Skills

.NET Core C# Microsoft Azure Angular LangChain Entity Framework SQL Server Docker
Kubernetes Azure DevOps CosmosDB CI/CD TypeScript Node.js MongoDB
Data Visualization JavaScript AngularJS

Certifications

- [Microsoft Certified: Azure Administrator Associate](#) (Microsoft)
- [Microsoft Certified: Azure Fundamentals](#) (Microsoft)
- [Microsoft Certified: Azure Developer Associate](#) (Microsoft)

Volunteer

- **IT Secretary** at IIT Software Engineers' Community (2017-2018)
Collaborated with software industry of Bangladesh by merging academic excellence with industrial career success.
